The following device information variables are supported. Variables aren't validated in the UI, and are case sensitive. If you enter an incorrect variable, you can see profiles saved with incorrect input. For example, if you enter {{DeviceID}} instead of {{deviceid}} or {{DEVICEID}}, then the literal string is shown instead of the device's unique ID. Be sure to enter the correct information. All lowercase or all uppercase variables are supported, but not a mix.

- {{AADDeviceId}}: Microsoft Entra device ID
- {{AccountId}}: Intune tenant ID or account ID
- {{AccountName}}: Intune tenant name or account name
- {{AppleId}}: Apple ID of the user
- {{Department}}: Department assigned during Setup Assistant
